Jim,

Courtney and I have been assigned the additional RSE work at Davidson. It was a busy week for us last week but we were able to briefly discuss with Matt Taylor what makes the most sense going forward with sampling between the EPA and NCDEQ at the Davidson Asbestos Site.

Do you have the time this afternoon, say around 2:30 PM or 3:00 PM for a quick discussion on next steps for setting up sampling/analysis at the site? Sorry for the short notice.

Thanks,
